Java Developer

Email:deveshthawali31@gmail.com /deveshthawali2017@gmail.com

Name : Devesh Nareshrao Thawali

Mobile:9561489351/9370279091

Professional Summary:

- Experience in developing the Web Applications using J2EE technologies.
- Having knowledge on Core Java topics of **Collections** and **Exception Handling.**
- Experience in development of object-oriented business application using **Java**, **JDBC, Servlets, JSP,**
- Knowledge of Front End Technologies of **HTML-5, CSS3.**
- Hands on experience in Core Java ,JDBC, Servlets, JSP,
- Extensive experience in IDE and debugging tools like Eclipse.
- Expertise working on Application servers like Tomcat 9.x.
- Adaptive to new technologies, Easy to work with any Environment and hard working nature.

Technical Profile:

Programming Language: Java.

Operating Systems   : Windows xp,7,8, 10, 11.

Databases   : MySQL.

Web-Technologies   : HTML,CSS.

JEE Technologies   : Servlets, Jsp.

Frame Works   : Hibernate JPA , Spring Boot

Development IDE's   : Eclipse

Application Servers   : Apache Tomcat 9.

Educational Qualification:

Sr. No.	Course	University/Board	Percentage
1.	BCA	RTM Nagpur University	**78.80%**
2.	HSC	Nagpur Board	58.00%
3.	SSC	Nagpur Board	61.00%

Java Developer

Project Profiles:

Client	:	Sample Project
Duration	:	April 2023 to May 2023
Role	:	Java/J2EE Developer.
Team Size	:	2

Project Description:

The e-Notes web project is a user-friendly online platform for organizing and storing personal notes. Users can register an account, securely log in, and create, edit, and categorize their notes. The application offers convenient search and filtering functionalities, enabling users to quickly find specific notes. It may also include collaborative features for sharing notes with others and setting reminders to stay organized. The e-Notes web project prioritizes the security and privacy of user data and ensures a responsive design for seamless access on various devices.

Position Responsibilities

- Oversees the eNotes project, defines goals, manages timelines and resources.
- Designs visually appealing interfaces using HTML, CSS, Bootstrap, focuses on user experience.
- Develops user-facing components using HTML, CSS, Bootstrap, integrates with JSP for dynamic content.
- Implements server-side logic using Java, Servlets, integrates with MySQL for data storage.
- Designs and manages the MySQL database, ensures data integrity and performance.
- Tests and ensures the quality and functionality of the eNotes application.
- Manages deployment, server setup, and continuous integration processes.
